- A2** Spanish

Experience

- 2024-now

ongoing

Senior Product Designer – BIScience
Designed a variety of B2B marketing data instruments, along a few consumer applications.
Solidified my skills around data visualisation and complex feature structures. The platform redesign and subsequent UI changes attracted many clients, including those that refused offers in the past.
- 2022-2023

8 mon

UI/UX Designer – Trinetix Inc
Worked on non-disclosure projects for one of the finest leaders in the Audit field. My work included full-cycle design, working on design systems, covering around ten projects in about eight months of work.
- 2020-2022

1 year 6 mon

o

Product Manager – Xelon AG
Scaled the product and increased feature impact with more extensive research and analytics in place.
Built an XFT product team and managed the development on dual-track agile.
Helped to deliver a couple of top-tier projects, increased user activation, and much more.
- 2018-2022

4 yrs 3 mon

o

Product Designer – Xelon AG
Designed a web app for cloud infrastructure management. Delivered complicated requirements and scaled my skillset to match the growing requirements and customer base. Product became a key service of the company and helped to scale the company 5+ times.
- 2018-2020

2 years

o

UI/UX Designer – Bitcat Agency
Acquired more agency experience, primarily focused on consumer mobile apps and enterprise clients.
- 2017-2019

2 yrs 3 mon

UI/UX Designer – Freelance & IDAP
Designed a variety of small projects for web and mobile.
